Motivated and animated by my passion for User Research, I'm about to obtain my bachelor in UX/UI Design at Le Chiffre in May 2022. Specialized in the video game industry during my years at the university as a social science and art student-researcher, I'm looking to join a team where I can continue to learn, grow, and apply what I have learned as a UX Designer.

## Experiences

### UX Designer (Lille, France) - Today

During my UX Design courses, I've designed two websites for small businesses. I'm using everything I've learned from visual branding, to accessibility and user research to meet customers' needs.

### Photographer - Since 2021

Expressing myself through photography and being creative has always been a passion of mine. Recently, I have started to put my craft at the service of my customers.

### Assistant Manager - 2016 - 2021

*Micromania Gamestop*

I was assistant manager of one of the largest video games store in France. This experience taught me leadership, management and discipline.

## Education
